Every two seconds someone in America needs blood. For the nearly 5 million people who receive blood transfusions every year, your donation can make the difference between life and death. Blood saves lives and is always needed, not just during national disasters. You can learn more about donation blood at <http://www.redcross.org/>.

Can you help make sure there is blood available for those in need?

It only takes about an hour to give blood and your donation can save 3 lives!
